Flooring Trolley (FLT001)

The J&C Joel flooring trolley has been designed specifically for the safe storage and deployment of J&C Joel's range of Joelmat vinyl floorings. The flooring trolley is also suitable for use with all of the other products in the J&C Joel range of event and dance flooring.

J&C Joel's flooring trolley is a mild steel sub frame kit capable of holding up to five full rolls of Joelmat vinyl flooring. The unit can be supplied to hold either 1.5 metre or 2 metre width rolls.

The frame is manufactured from a rectangular base structure with intermediate spokes, laser profiled steel plates, smooth glide swivel casters and roll tubes. An adaptor handle can be attached to the roll tubes which allows rolls of flooring to be unrolled or re-rolled with little effort. The frame itself can be powder coated to any colour.

Dimensions (approx)

Length (mm)	Height (mm)	Width (mm)	Barrel length (mm)	Material
2210	1250	1100	2630	Powder coated steel

The J&C Joel Flooring Trolley is available at a price of £700.00. Contact Jodie Rhodes in the Standard Products Department for further details.
